### **Reasons for Allowance**

The following is an examiner's statement of reasons for allowance: although most of the individual method steps and individual devices claimed can be found in isolation in the prior art, there is no motive in the art of record to combine all of them into a method for feeding material to a combinational weigher. For example, the "revolving scales" and the independently controlled endless conveyors are shown by the examples of Baker (US # 6,407, 346) and Kee et al (US # 4,874,049), respectively, but there is no motive to either combine them together, or use either one of these devices either apart or together as a in-feed device for a combinational weigher, such as the devices shown by Edwards et al (US # 4,821,820) or Nakamura (US # 4,615,403).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Randy W. Gibson whose telephone number is (571) 272-2103. The examiner can normally be reached on Mon-Fri., 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Diego F. Gutierrez can be reached on (571) 272-2245. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
